We corrected the manuscript as follows

1) Please provide the postal address in the author details.

For each author, we included the department, university, postal code, town of the working site and country in the authors details.

2) APA style citations are mandatory. The APA in-text citation consists of the author's last name and the year of publication. Ensure they are in alphabetical order and that there are no missing, uncited, and incomplete or inconsistent references. There is no need to add numbers to the references in alphabetical order, as the numbers are not used in the text.

We have switched to APA-style citations throughout the text. Latex guarantees that the citations are in alphabetical order and are complete. There are no longer any numbers in the references.
